PRODUCTS THAT ENSURE ULTIMATE RELIABILITY IN ANY SITUATION

Rondal designs and manufactures high-performance sailing systems and equipment for superyachts. Rondal is recognized as the best for its unrivalled Dutch build quality and innovative technical solutions, achieved through a dedicated focus on continuous improvement in both products and services.

As a building partner, Rondal leverages decades of experience and unburdens the client by taking on turn-key projects. The products of Rondal ensure ultimate reliability in any situation.

The Rondal team consists of approximately 75 professionals. The workforce includes highly qualified engineers, composite workers, CNC machine operators, welders and mechanics as well as a host of complementary specialists.

With decades of experience in composite and aluminum engineering and manufacturing, Rondal serves the market with specialized products for both sailing yachts and motor yachts.

RONDAL WINDBREAKS

Rondal Windbreaks are high-quality, custom-made windbreakers or windshields primarily used in the maritime and shipbuilding industry. Rondal Windbreaks are designed to reduce wind loads on motor yachts and other vessels, thereby enhancing safety and comfort onboard.

Whether you're looking for vertical lifted glass panels or horizontal sliding windbreaks, Rondal can always provide the perfect solution. The windbreaks are designed to meet the specific requirements of each owner and architect.

KEY NOTES

- Wintergarden
- Wind shield
- Sliding glass
- Ease of operation
- Stainless steel
- Glass panel
- Clean design, no bolts
- Above ceiling painted
- Stainless steel deck track

KEY FEATURES

- Manual, electric, or combined operation
- High quality semi-custom, full custom, or anything in between, to meet every requirement
- Inline, materials and finish in complete harmony with the yacht's esthetics
- Single or multi-track system, straight or curved design, no boundaries or limitations

RONDAL'S APPROACH

At Rondal, we are your modern craftsmen, experts who personally oversee every detail of your project. We offer fully comprehensive solutions, from precise 3D measurements to expert installation. With dedicated project managers, in-house engineering, design, and rigorous testing, your project is in capable hands. We combine high-tech knowledge with the appreciation for hands-on craftsmanship.

Before anything leaves our facility, the project undergoes a thorough Factory Acceptance Test (FAT). Our experienced service engineers handle the installation, ensuring everything works seamlessly.

The background of the entire page is a light blue color with a pattern of white, irregular, wavy lines that resemble topographic contour lines on a map. These lines vary in thickness and spacing, creating a sense of depth and movement across the frame.

ADVENTURE IS WAITING FOR YOU THERE
